

# MGAGE TRANSFORMATION READINESS CHECKLIST

Is your organization set up for transformation success?  
Assess your readiness across six essential domains:

01

## Vision & Business Case

You have a clearly defined transformation vision and business case, with target-state outcomes aligned across leadership.

02

## Stakeholder Alignment

Key stakeholders are identified, their influence mapped, and communication strategies are in place to keep everyone aligned.

03

## Governance & Decision-Making

Your RACI framework, escalation paths, and governance structures support quick, confident decision-making at every stage.

04

## Current-State Assessment

You've documented the current landscape—teams, tools, and processes—and identified key risks and blockers with mitigation plans.

05

## Risk & Readiness Planning

Your teams are trained or set to be supported through adoption planning, ensuring readiness for what's next.

06

## Metrics & Roadmapping

A phased roadmap is in place, and success metrics are clearly defined to measure progress before, during, and after launch.

## From Checklist to Launchpad

MGAGE's Transformation Launchpad Accelerator turns this checklist into a tailored, execution-ready strategy—built for velocity, delivered with precision.
